

Three Rivers District Council Local Development Framework Further Preferred Options

In February and March 2009 we carried out widespread public consultation on a document called the 'Core Strategy Preferred Options'. This set out how much development will be needed to meet our regional targets and where new houses, jobs and services will go. It also set out how we will assess planning applications and control future development.

We will now be carrying out a further consultation on our 'Preferred Options', focusing on the future source of housing and housing sites. The consultation documents and details of how to have your say will be available to view on the Council's website from 9 November 2009. The consultation will take place over a ten week period (9 November 2009 to 15 January 2010) and we have arranged the following consultation events to which you can come and find out more.

The Development Plans Team
